

FontSizeCache

```
classDiagram
    class FontSizeCache
    class ToastLayer
    class ui_UIContext["ui::UIContext"]
    ToastLayer --|> FontSizeCache
    ui_UIContext --|> FontSizeCache
```

The diagram illustrates a class hierarchy. At the top is the 'FontSizeCache' class. Below it are two other classes: 'ToastLayer' on the left and 'ui::UIContext' on the right. Both 'ToastLayer' and 'ui::UIContext' have arrows pointing upwards to 'FontSizeCache', indicating that they inherit from it. The connections are made via a horizontal line from which two vertical lines descend to the boxes of 'ToastLayer' and 'ui::UIContext', with an upward-pointing arrow at the center of the horizontal line.

ToastLayer
