

# BaseComponent

```
classDiagram
    class BaseComponent
    class HasName
    BaseComponent <|-- HasName
```

A UML class diagram illustrating inheritance. The class 'BaseComponent' is positioned at the top, and 'HasName' is positioned at the bottom. A vertical arrow points from the bottom of 'HasName' to the bottom of 'BaseComponent', indicating that 'HasName' inherits from 'BaseComponent'.

# HasName
