

FontSizeCache

```
classDiagram
    class FontSizeCache
    class ToastLayer
    class ui_UIContext["ui::UIContext"]
    ToastLayer --|> FontSizeCache
    ui_UIContext --|> FontSizeCache
```

The diagram illustrates a class hierarchy where both `ToastLayer` and `ui::UIContext` inherit from `FontSizeCache`. The `FontSizeCache` class is positioned at the top, while the two subclasses are positioned below it. A horizontal line connects the two subclasses, with vertical lines extending upwards from each to a central point, from which an arrow points up to the `FontSizeCache` box.

ToastLayer
